### 1. Purpose of Application:

North Carolina Renewable Power - Elizabethtown, LLC (NCRP) currently operates under Air Quality Permit 05455T20. The existing permit contains references to the federal Clean Air Interstate Rule [CAIR]. This rule no longer applies and has been superseded by the Cross State Air Pollution Rule [CSAPR].

The DAQ has reopened this permit in order to remove references to CAIR and replace them with CSAPR.

## 2. Facility Description:

According to the most recent inspection report<sup>1</sup>, "...the facility is an old coal-burning power plant, which houses two boilers and is permitted combust myriad fuels. The facility will likely undergo modification similar to that performed at its sister plant in Lumberton...to allow the boilers to burn primarily non-CISWI wood fuel, with some percentage of poultry litter to produce steam for energy production."

## 3. Application Chronology:

• August 25, 2015 Rahul Thaker sent an email to NCRP informing them of the potential need for DAQ to reopen the permit in order to remove CAIR and add CSAPR.

January 21, 2016 Application initiated by the NCDAQ.

XXXXXX Initial draft

XXXXXX
 Public / EPA Notice

• XXXXXX Permit issued.

### 4. Regulatory Review:

## a. CAIR requirements

According to 40 CFR 52.35(f) and 52.36(e), CAIR no longer applies as of January 1, 2015. CAIR has been moved to Section 2.3. in the permit, which is for non-applicable regulations.

According to 15A NCAC 2D .2401(a), the purpose of the 2D .2400 rules was to implement CAIR. Given that CAIR no longer applies, the NC rules that implement CAIR also do not apply. Therefore, references to 2D .2400 rules have been moved to Section 2.3. in the permit.

## b. CSAPR requirements

CSAPR (specifically, 40 CFR Part 97, Subparts AAAAA, BBBBB, and CCCCC) was originally scheduled to take effect on January 1, 2012. This rule was planned as a replacement for CAIR. However, CSAPR was challenged in court and initially vacated by the DC Circuit Court. Legal issues were finally resolved in April 2014, when the US Supreme Court reversed that decision. Because the regulation was delayed by court proceedings, the effective date of the rule was moved to January 1, 2015.

<sup>1</sup> Joshua Harris, January 6, 2016

Review of application 0900043.16A North Carolina Renewable Power - Elizabethtown, LLC Page 3 of 3

This rule and all requirements thereof are considered Federal-enforceable only. Compliance will be determined by the US EPA, not NC DAQ. A reference to this rule has been added to the permit.

## 5. Facility Emissions Review

The transition from CAIR to CSAPR is not expected to change actual or potential emissions from this facility.

## 6. Public Notice/EPA and Affected State(s) Review

A notice of the DRAFT Title V Permit shall be made pursuant to 15A NCAC 2Q .0521. The notice will provide for a 30-day comment period, with an opportunity for a public hearing. Copies of the public notice shall be sent to persons on the Title V mailing list and EPA. Pursuant to 15A NCAC 2Q .0522, a copy of each permit application, each proposed permit and each final permit pursuant shall be provided to EPA.

Also pursuant to 2Q .0522, a notice of the DRAFT Title V Permit shall be provided to each affected State at or before the time notice provided to the public under 2Q .0521 above.
